

Greenland is very safe and has good education!

Studies show that most parents want the best for their kids, and the best for your kids is here, in Greenland! We have a safe and educational environment for those young ones! Not only do you and your kids get educat-

We are very safe, even for non-citizens!

ed, you and your kids

What's so great about Greenland anyway?

Greenland has great prices, safety, good education, and best of all, IT'S GREEN! There is no smog in the air, so you can stargaze, the houses are green so you don't have to feel the guilt when you waste materials etc., and we have quality in everything we have here in Greenland so your life here luxurious, relaxing, safe, educational, with great prices, and best of all..... GREEN!

# Greenland!

“We’re being green in Greenland!”

● Call now! 123-456-7890

**Great deals,  
prices, safety, and  
education!!!!!!**

Free is best!

If you book a  
flight and  
house in the  
next 48 hours,  
you get a FREE

upgrade for your house! Studies  
show that upgrades make things  
better, and we don't need stud-  
ies to show that free things are  
awesome! Happy customers (all  
of them) say "I chose my upgrade  
and I got it for free! That up-  
grade was an upgrade to my life."  
You can make your house even  
more green and luxurious than it  
already is! That's really hard!

**What's wrong with my old  
city?**

**EVERYTHING!** In your old  
city, the air is gross, there is  
tons of smog in the air, It is  
crowded. There are no  
trees and there is no green-  
space. You and others feel

bad about  
how much  
you are  
wasting.

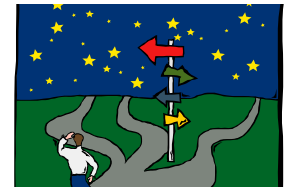

There is tons of smog  
in your old city, you  
can barely breathe!

You need a  
new place to go where the  
air is clean and you aren't  
wasting.

**The air will be much cleaner:  
no smog!**

Rooftop  
gardens,  
which are  
very com-  
mon here,  
contrib-

You can see stars with-  
out smog!

ute to the clean air here in  
Greenland! Everybody loves  
stargazing! You can stargaze  
without any bothersome  
smog blocking your view!  
Studies show that in Green-  
land, 99.9% less people get  
sick with respiratory diseases.
